About This Game

Welcome to Geometry Island! You are just in time to partake in the biggest brawl between two warring geometric factions - the Cubemen and Octahedrons. So pick a side and fight your way to victory in Geometry Boxer, featuring...

- The Cubemen and Octahedrons, two unique factions with their own geometric attacks, such as the Cube-Stomp and Octahedron Whirl
- An advanced, motion-captured, animation driven-physics system that creates hilariously verbose combat scenarios
- An array of melee weapons including hatchets, crowbars, fire hydrants, and much more
- 2-Player co-operative mode for the entirety of the campaign (2 controllers required)
- Xbox 360/Xbox One/PS4 controller & mouse/keyboard support
- ...and much more!

Punch, kick, and smash your way into Geometric history by conquering the island for your faction! Take advantage of the wacky physics and exciting special abilities to best your opponents. Be the last one standing at the end of each stage to proceed to the next area. If you are having trouble beating the hordes of enemies on your own, recruit a friend for some silly splitscreen

co-operative action!

**Note: PS4 Controller support on MacOSX currently unsupported.*
